Neschen AG

### Preconditions:

All materials of this quality certificate are designed and manufactured under ISO 9001:2008 by Neschen AG in Germany. The products are tested for a 2 years application when applied in accordance with the technical bulletin. All tests conducted under controlled climatic conditions, 23/50-2, DIN 50014. If the Neschen AG is responsible of a product defect, we will bear all costs up to the amount of the goods.

Complete details of the quality certificate are provided in the technical datasheet and in instruction bulletins on the homepage [www.neschen.com](http://www.neschen.com)
